DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 3/21/2005 has been entered.

Allowable Subject Matter

Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance:

The allowability resides in the overall structure of the device as claimed at least in independent claims and at least in part, because of following:

US 2002/0080601 to Meltzer discloses a device for simulating an open fire having a housing, a wall positioned in the enclosure forming an air intake chamber and air outflow chamber and an opening in communication with the intake chamber and outflow chamber.

However, the instant application recites a flameless candle having:

- an opening in communication with ambient air and the air intake chamber and opening in communication with an ambient air and air outflow chamber located proximate one end of the housing;

Art Unit: 2875

- a wall is positioned between the two opposing sides of the base;
- a lid covering the air intake and air outflow chambers;
- a wick and a fragrance source positioned in the air stream created by the fan;
- a wall having another opening and a light source positioned in this opening;
- a wick positioned in the air stream and a wax covered sidewall;
- wax covered housing and a lid positioned in the opening;
- a fragrance source positioned in the air stream.

These are not found in the prior art of record therefore the claims are seemed patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
